

# Learn how to safeguard your child's life over coffee

Dear Expectant Mom,

You are cordially invited to an antenatal session where we explain everything there is to know about stem cells. You can bring as many questions as you want. We'll get the refreshments.

The antenatal sessions will be held at: **Favourite Things, Palm Strip Mall (opposite The One), Jumeira Beach Road.**

**English Sessions: 10am, first Tuesday of every month.**

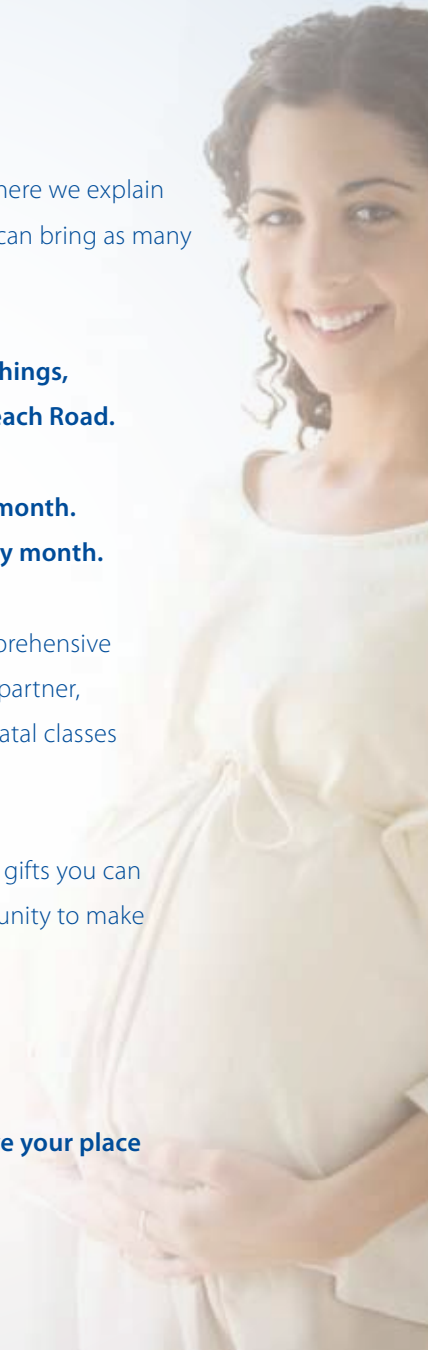

**Arabic Sessions: 10am, second Tuesday of every month.**

After the session, you can also take away our comprehensive brochure on stem cell banking to share with your partner, and information about all the antenatal and postnatal classes available in Dubai.

Stem cell preservation is one of the most precious gifts you can give your child. So don't miss this precious opportunity to make an informed decision!

*See you soon!*

**Call Cryo-Save Arabia on 04 360 4410 to reserve your place at an antenatal session of your choice.**
